

VIPUL J PATIL

SUMMARY

Computer Engineering student (FE) at Terna Engineering College, Nerul, with hands-on experience in frontend web development using HTML, CSS, and JavaScript, including building websites for practice and real clients. Familiar with Python, C, and C++, and basic concepts of AI and large language models. Strong interest in finance, quantitative trading, and technology, aiming to build a career as a Quant/HFT Engineer or software developer in top MNCs. Known for curiosity, fast learning, and exploring emerging technologies.

EXPERIENCE

Freelance Frontend Web Developer Self-Employed | 9-2025 - 10-2025

- Designed and developed a responsive business website for a construction services company using HTML, CSS, and JavaScript.
- Implemented structured service pages, contact forms, and UI layout for improved user experience and client inquiries.
- Collaborated with the client to understand business requirements and delivered a fully functional live website.
- Managed testing, debugging, and deployment of the website on GitHub Pages.
